ORS 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

City Of Stanfield
C/O Jerry Carlson
P.O. Box 368
Stanfield, Or 97875

Agent

Findings of Fact

1. On May 20, 2013, the City of Stanfield, filed an application for an additional point of appropriation under Certificate 37615. The Department assigned the application number T-11601.
2. Pursuant to 540.510 3(a) the City of Stanfield is currently applying water to beneficial use on lands to which the right is not appurtenant due to the expansion of the Urban Growth Boundary to the City of Stanfield. The rate of 1.34 cubic feet per second authorized by the water right is not exceeded.
3. On September 9, 2013, the agent requested on behalf of their client that the completion date be extended to October 1, 2033.
4. Notice of the application for transfer was published on May 28, 2013, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
5. On August 29, 2013, the Department sent a copy of the Preliminary Determination proposing to approve Transfer Application T-11601 to the applicants. The Preliminary Determination cover letter set forth a deadline of September, 2013, for the applicants to

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). respond. The applicants requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.

6. On October 2, 2013, the Department issued a Preliminary Determination proposing to approve Transfer Application T-11601 and sent a copy to the applicant. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's weekly notice on October 8, 2013, and in the Hermiston Herald newspaper on October 12 and 19, 2013, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notices.

13. All other application requirements are met.

Conclusions of Law

The additional point of appropriation proposed in Transfer Application T-11601 is consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000.

Now, therefore, it is ORDERED:

1. The additional point of appropriation proposed in Transfer Application T-11601 is approved.
2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 37615 and any related decree.
3. Water Right Certificate 37615 is cancelled.
4. The quantity of water diverted at the additional point of appropriation, together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.
5. Water use measurement conditions:
 - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device at each point of appropriation (new and existing) appropriation.
 - b. The water user shall maintain the meters or measuring devices in good working order.
 - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.
6. Water shall be acquired from the same aquifer (water source) as the original point of appropriation.

7. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2033**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.
8. When satisfactory proof of the completed change is received, a new certificate confirming the right transferred will be issued.

Dated at Salem, Oregon this 22 day of November, 2013.
